# NICO D. LUMIBAO

## QUALIFICATIONS

- Experienced Senior Software Developer and Former Team Lead, managing a team of 15 developers while ensuring efficient project delivery, code quality, and cross-department collaboration.

- Full-stack expertise in both frontend and backend development using modern frameworks such as React, Next.js, Vue.js, Node.js, Laravel, and Tailwind CSS.

- Proficient in designing and developing RESTful APIs and creating scalable, responsive, and user-centered web applications.

- Strong foundation in relational databases (MySQL, PostgreSQL) and NoSQL systems (Amazon DynamoDB), with solid understanding of Object-Oriented Programming, software architecture, and web application development.

- Hands-on experience with version control (Git/GitHub), CI/CD pipelines, and cloud-based deployments (e.g., AWS, Vercel, and Cloudflare).

- Adept at project planning, task delegation, and mentoring developers, fostering collaboration and continuous improvement within agile teams.

- Committed to writing clean, maintainable, and efficient code, following industry best practices and modern development standards.

- Highly adaptable and capable of working independently or within cross-functional teams, with strong problem-solving and communication skills.

## TECHNICAL SKILLS

- **Frontend**: React, Vue.js, Next.js, Vuex, Tailwind CSS
- **Backend**: Node.js, Laravel, AdonisJS, PHP
- **Database**: MySQL, PostgreSQL, DynamoDB
- **Tools & DevOps**: Git, GitHub, Docker, Cloudflare, AWS, Vercel
- **Core Expertise**: RESTful API Development, Agile Development, CI/CD Pipelines, Scalable Architecture

# EXPERIENCE

## Halcyon Agile — *Senior Software Developer - Team Lead*
October 2022 - February 2024

- Led a team of 15 developers, managing end-to-end project lifecycles and ensuring timely delivery of high-quality applications.

- Collaborated with multiple departments to integrate emerging technologies and optimize system performance.

- Translated complex business requirements into modular, maintainable, and scalable system components.

- Conducted code and design reviews, maintaining high development standards and promoting clean code practices.

- Provided technical support and guidance to resolve system issues and enhance operational stability.

- Prepared and maintained technical documentation for internal and client-facing systems.

## Halcyon Digital Media Design — *Software Developer*
APRIL 2021 - October 2022

- Built and maintained full-stack web applications using Next.js for the frontend and AdonisJS for the backend.

- Designed and implemented data structures and models in MySQL and DynamoDB.

- Ensured consistent high-quality development through testing, code optimization, and performance monitoring.

- Translated product requirements into technical solutions aligned with business goals.

## Halcyon Digital Media Design — *Laravel Developer*
APRIL 2017 - July 2021

- Develop responsive and user-friendly web interfaces using HTML, CSS, and JavaScript.
- Implement and maintain a clean and efficient user experience (UX) and user interface (UI).
- Create effective programming solutions and ensure high-quality code standards.
- Writing and implementing efficient code.
- Developing quality assurance procedures.
- Maintaining and upgrading existing systems.

### Hack & Hustle Digital Inc — *Software Developer*

JUNE 2016 - MARCH 2017

- Estimate, build, test and maintain web functions and infrastructure for websites and web apps. The primary technology we use is PHP with Laravel web framework.
- Development of new software according to business requirements.
- Maintenance of deployed applications according to necessary changes.

## EDUCATION

### AMA Computer Learning Center — *BS in Information and Technology*

2012 - 2016 - Taguig City

**AWARD** - BEST I.T. WEB PROGRAMMER

### Ramos National High School

2007 - 2011 - Pob. South Ramos, Tarlac

### Coral Elementary School

2001 - 2007 - Coral, Ramos, Tarlac
